

# AVOIDING SNAKES AND PREVENTING SNAKEBITE: COMPOUND AND OUTDOORS

## How can you keep from having a bad experience with a snake when walking or working outside?

Wear boots or shoes that protect your feet and not sandals or bare feet

Walk with heavy footsteps to make vibrations

Walk with someone and probe the ground in front of you with a stick

Watch where you put your hands

Watch where you sit

Be careful when you relieve yourself

Be careful walking under branches

Use a torch when going out after dark
