

FIRST AID FOR SPITTING COBRA VENOM IN EYES

SYMPTOMS

Painful and watery eyes, uncontrollable blinking or twitching, swelling, eyes turn red, sensitivity to light.

Do not rub your eyes!

RINSE FOR 15-30 MINUTES

Use urine as a last resort. Do not use human milk as disease can be transmitted. Make sure to rinse corners of eyes and under lids.

COVER YOUR EYES WITH A CLOTH OR DARK GLASSES - THEY WILL BE SENSITIVE TO LIGHT

**GET TO A HOSPITAL QUICKLY
DO NOT DELAY**
